

Dokumentation: Oil-FuelPrices API

Base URL:

<https://apim-fuel-prices-prod.azure-api.net/Oil-FuelPrices>

Formål:

Dette API giver adgang til aktuelle brændstofpriser fra OIL! tankstationer i Danmark. Du kan filtrere på brændstoftype, geografisk placering, station og få opdateringsdatoer med.

Godkendelse

API'et er offentlig via Azure API Management (APIM) – ingen subscription key nødvendig, da API'et er sat til "open access".

Funktionen i baggrunden kræver en funktion key, men APIM håndterer dette internt.

Tilgængelige query-parametre

Parameter Type Beskrivelse

fuelType	string	Brændstoftype, fx 95E10, DieselB7, BIO100_Diesel, AdBlue. Hvis ikke angivet, returneres alle typer.
