

# Environmentally Friendly Electricity certificate

Environmentally Friendly Electricity ensures that the electricity consumption comes from unspecified Danish wind power.

Energi Danmark A/S's auditor, PWC, documents – as regards reviewing the account – the balance between purchased and sold Environmentally Friendly Electricity.

Company name	Address	Zip code	City
OIL! tank & go ApS	Andkærvej 26	7100	Vejle

Energi Danmark A/S hereby certifies that: OIL! tank & go ApS

has bought their share of the electricity consumption in the period from 01.11.2020 - 31.12.2021 as Environmentally Friendly Electricity produced by unspecified Danish wind turbines.

Expected yearly consumption: **470.418 kWh**
